

Stakeholder Meeting:

Nutrient TMDL for the Catawba River Basin

Wednesday July 31, 2002
10 a.m. – 2 p.m.

Cone Center – Rm. 112
UNC-Charlotte
Charlotte, NC

(Directions enclosed;
Cone Center is Bldg. 22 on UNC-C Campus Map)

You are invited to participate in the next stakeholder meeting aimed at developing a nutrient TMDL for the Lower Catawba River.

Prior to the meeting (**by July 24**) we plan to post on the SC DHEC website (<http://www.scdhec.net/water/shed/home.html>) an updated synopsis of recent work done by Dr. Dan Tufford and Dr. Hank McKellar (University of South Carolina, Dept. of Environmental Health Sciences). They are currently involved in a project to use a computer model (Watershed Analysis, Risk Management Framework model; WARMF) as input to the TMDL process for the Lower Catawba.

To get things started at the meeting, Dan and Hank will present information on how the computer model works and results on model calibration and prediction. The meeting will then be open for stakeholder comments and suggestions.

We look forward to your participation in this important step in improving and maintaining water quality in the Lower Catawba River.
